A Worried Phone Call

What is going on?

Wana Decrypt0r 2.0

Ooops, your files have been encrypted! English

Payment will be raised on
7/26/2017 21:14:18
Time Left
02:23:22:21

Your files will be lost on
7/30/2017 21:14:18
Time Left
06:23:22:21

What Happened to My Computer?
Your important files are encrypted. Many of your documents, photos, videos, databases and other files are no longer accessible because they have been encrypted. Maybe you are busy looking for a way to recover your files, but do not waste your time. Nobody can recover your files without our decryption service.

Can I Recover My Files?
Sure. We guarantee that you can recover all your files safely and easily. But you have not so enough time. You can decrypt some of your files for free. Try now by clicking <Decrypt>. But if you want to decrypt all your files, you need to pay. You only have 3 days to submit the payment. After that the price will be doubled. Also, if you don't pay in 7 days, you won't be able to recover your files forever. We will have free events for users who are so poor that they couldn't pay in 6 months.

How Do I Pay?
Payment is accepted in Bitcoin only. For more information, click <About bitcoin>. Please check the current price of Bitcoin and buy some bitcoins. For more information, click <How to buy bitcoins>. And send the correct amount to the address specified in this window. After your payment, click <Check Payment>. Best time to check: 9:00am - 11:00am GMT
From Monday to Friday

 **bitcoin**
ACCEPTED HERE

Send \$300 worth of bitcoin to this address:
12t9YDP'gwueZ9NyMgw519p7AA8isjr6SMw Cop

What Can We Do?

What Can We Do?

NUMBER

01

The #1 Security Threat?

**What Is The Single Biggest
Security Threat Today?**

You Are

Specifically

YOU AND YOUR EMPLOYEES!

**2 Ways You And Your
Employees Are Threats**

**“But We’re Small... Nobody
Would Bother To Hack Us, Right?”**

Wrong!

COMPLACENCY

“Success breeds complacency. Complacency breeds failure. Only the paranoid survive.”

- *Andrew Grove, former CEO of Intel*

EMPLOYEE TRAINING

Lack of an employee training program to raise awareness of cyber crime and cyber security.

HOW IS CYBER CRIME DIFFERENT

Blame often goes onto the victim.

“They were irresponsible”

7 Cyber Security Best Practices You Can Implement Right Now To Better Protect Your Operations

Security should be like an onion

You need to have multiple levels of security before you get to the inside

PROTECTION

No 1

Employee Education

PROTECTION

No 1

Implement An Employee Training Plan

There are many options available, either through MSPs or direct. We provide training to all our clients as part of our service. INFOSEC and KnowBe4 are two common ones that you can purchase direct.

INFOSEC

KnowBe4
Human error. Conquered.

PROTECTION

N_o 2

Passwords and Multi-Factor

PROTECTION

N^o 2

**Require Strong
Passwords and....**

PROTECTION

N^o 2

**Don't Reuse
Passwords!**

PROTECTION

N^o 2

Use A Password Manager

PROTECTION

N^o 2

**Enable Multi Factor
Authentication (2FA)**

PROTECTION

N^o 3

**Keep Your Network And Devices
Up-To-Date**

PROTECTION

No 3

Security Updates/Patches

- Windows
- 3rd Party Software (Java, Adobe, iTunes, Flash)
- Firewalls, Routers, Servers, etc.
- Printers, Switches
- Phones and Apps

PROTECTION

N^o 4

**Keep your Standard Security +
add in Threat Hunting**

PROTECTION

No 4

ANTIVIRUS

EMAIL SECURITY

CONTENT
FILTERING

FIREWALL / VPN

Keep your Standard PREVENTION Security Solutions

- Email Security
- Firewalls
- Antivirus
- Website Content Filtering
(blocking known bad pages)

PROTECTION

No 4

Add In Threat Detection (EDR or Endpoint Detection and Response)

- Looks for signs of bad actors
- Raises shields (isolates) once it discovers activity that's suspicious
- Log and Remediate

PROTECTION

No 4

Office 365 Managed Detection and Response

- Looks for signs of suspicious logins
- Looks for email tampering
- Suspicious email forwarding rules

PROTECTION

N^o 5

**Have An Excellent Backup
And Test It Regularly**

PROTECTION

N^o 5

Backup and TEST

PROTECTION

N_o 5

**Send Data Offsite as
well as keep a copy
Onsite**

PROTECTION

N_o 5

Did I Mention Test?

PROTECTION

№ 6

Limit Administrative Rights

PROTECTION

N^o 6

**Use the Least Privilege
Access Principle**

PROTECTION

No 6

No, you as a business owner don't need administrator access on your day-to-day account

PROTECTION

No 7

Have an Incident Response Plan

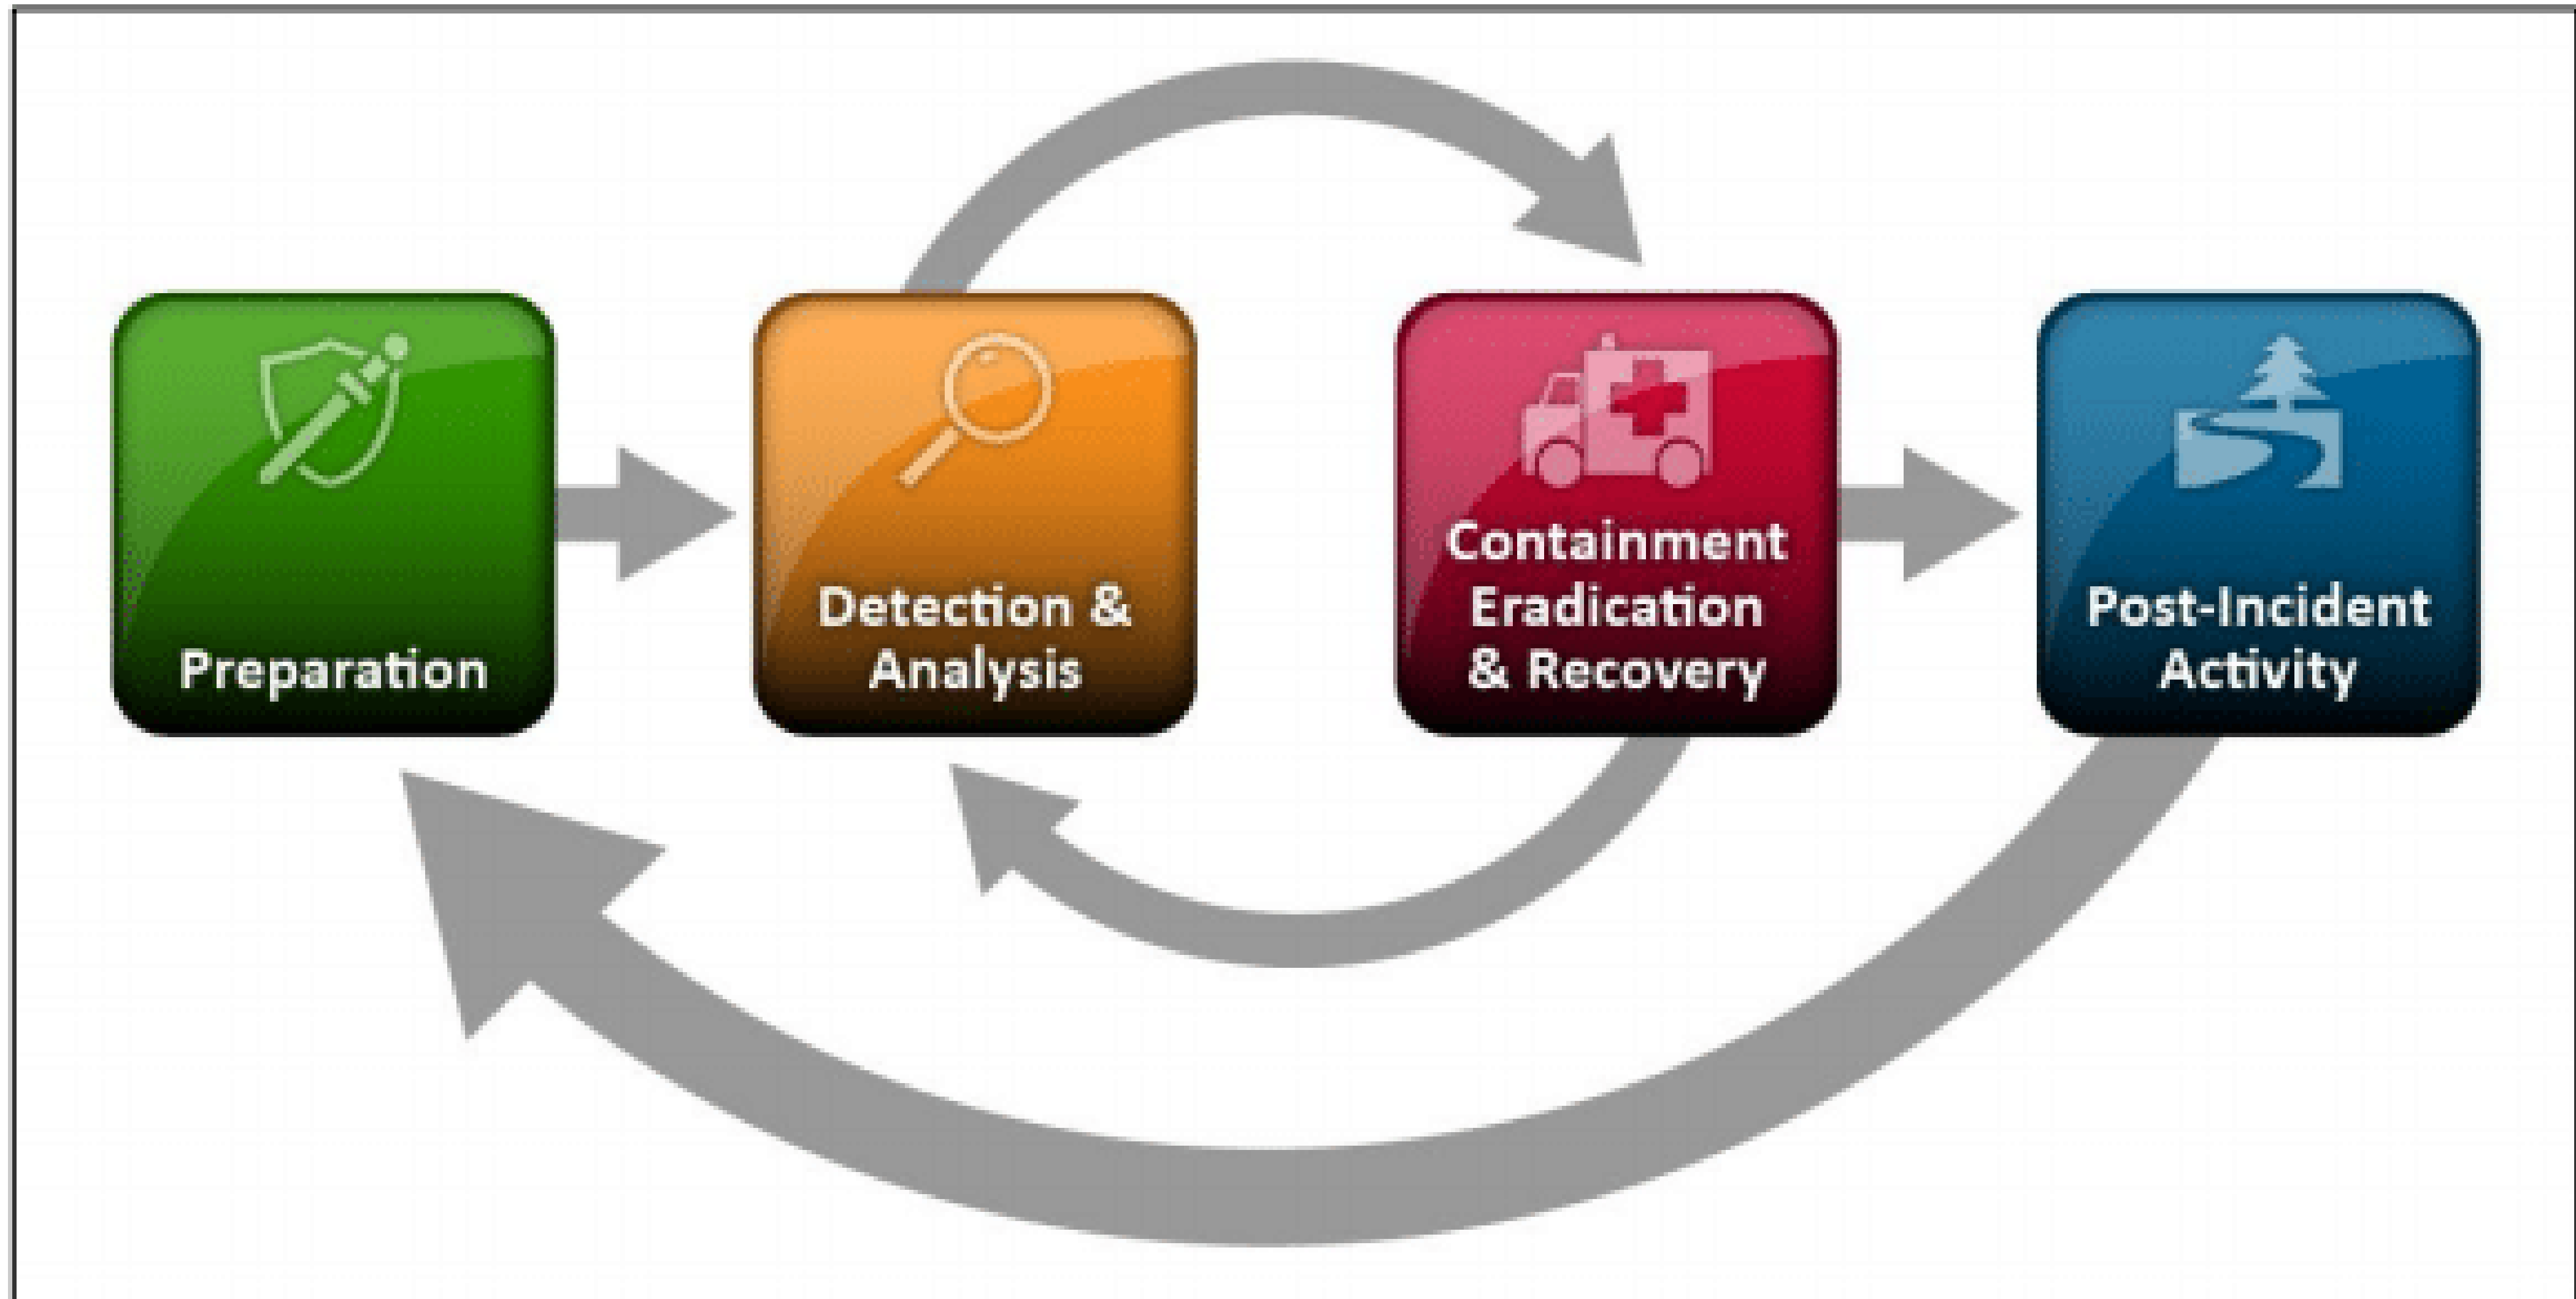

PROTECTION

No 7

An Incident Response Plan Allows you to respond quickly and limit consequences when a breach occurs

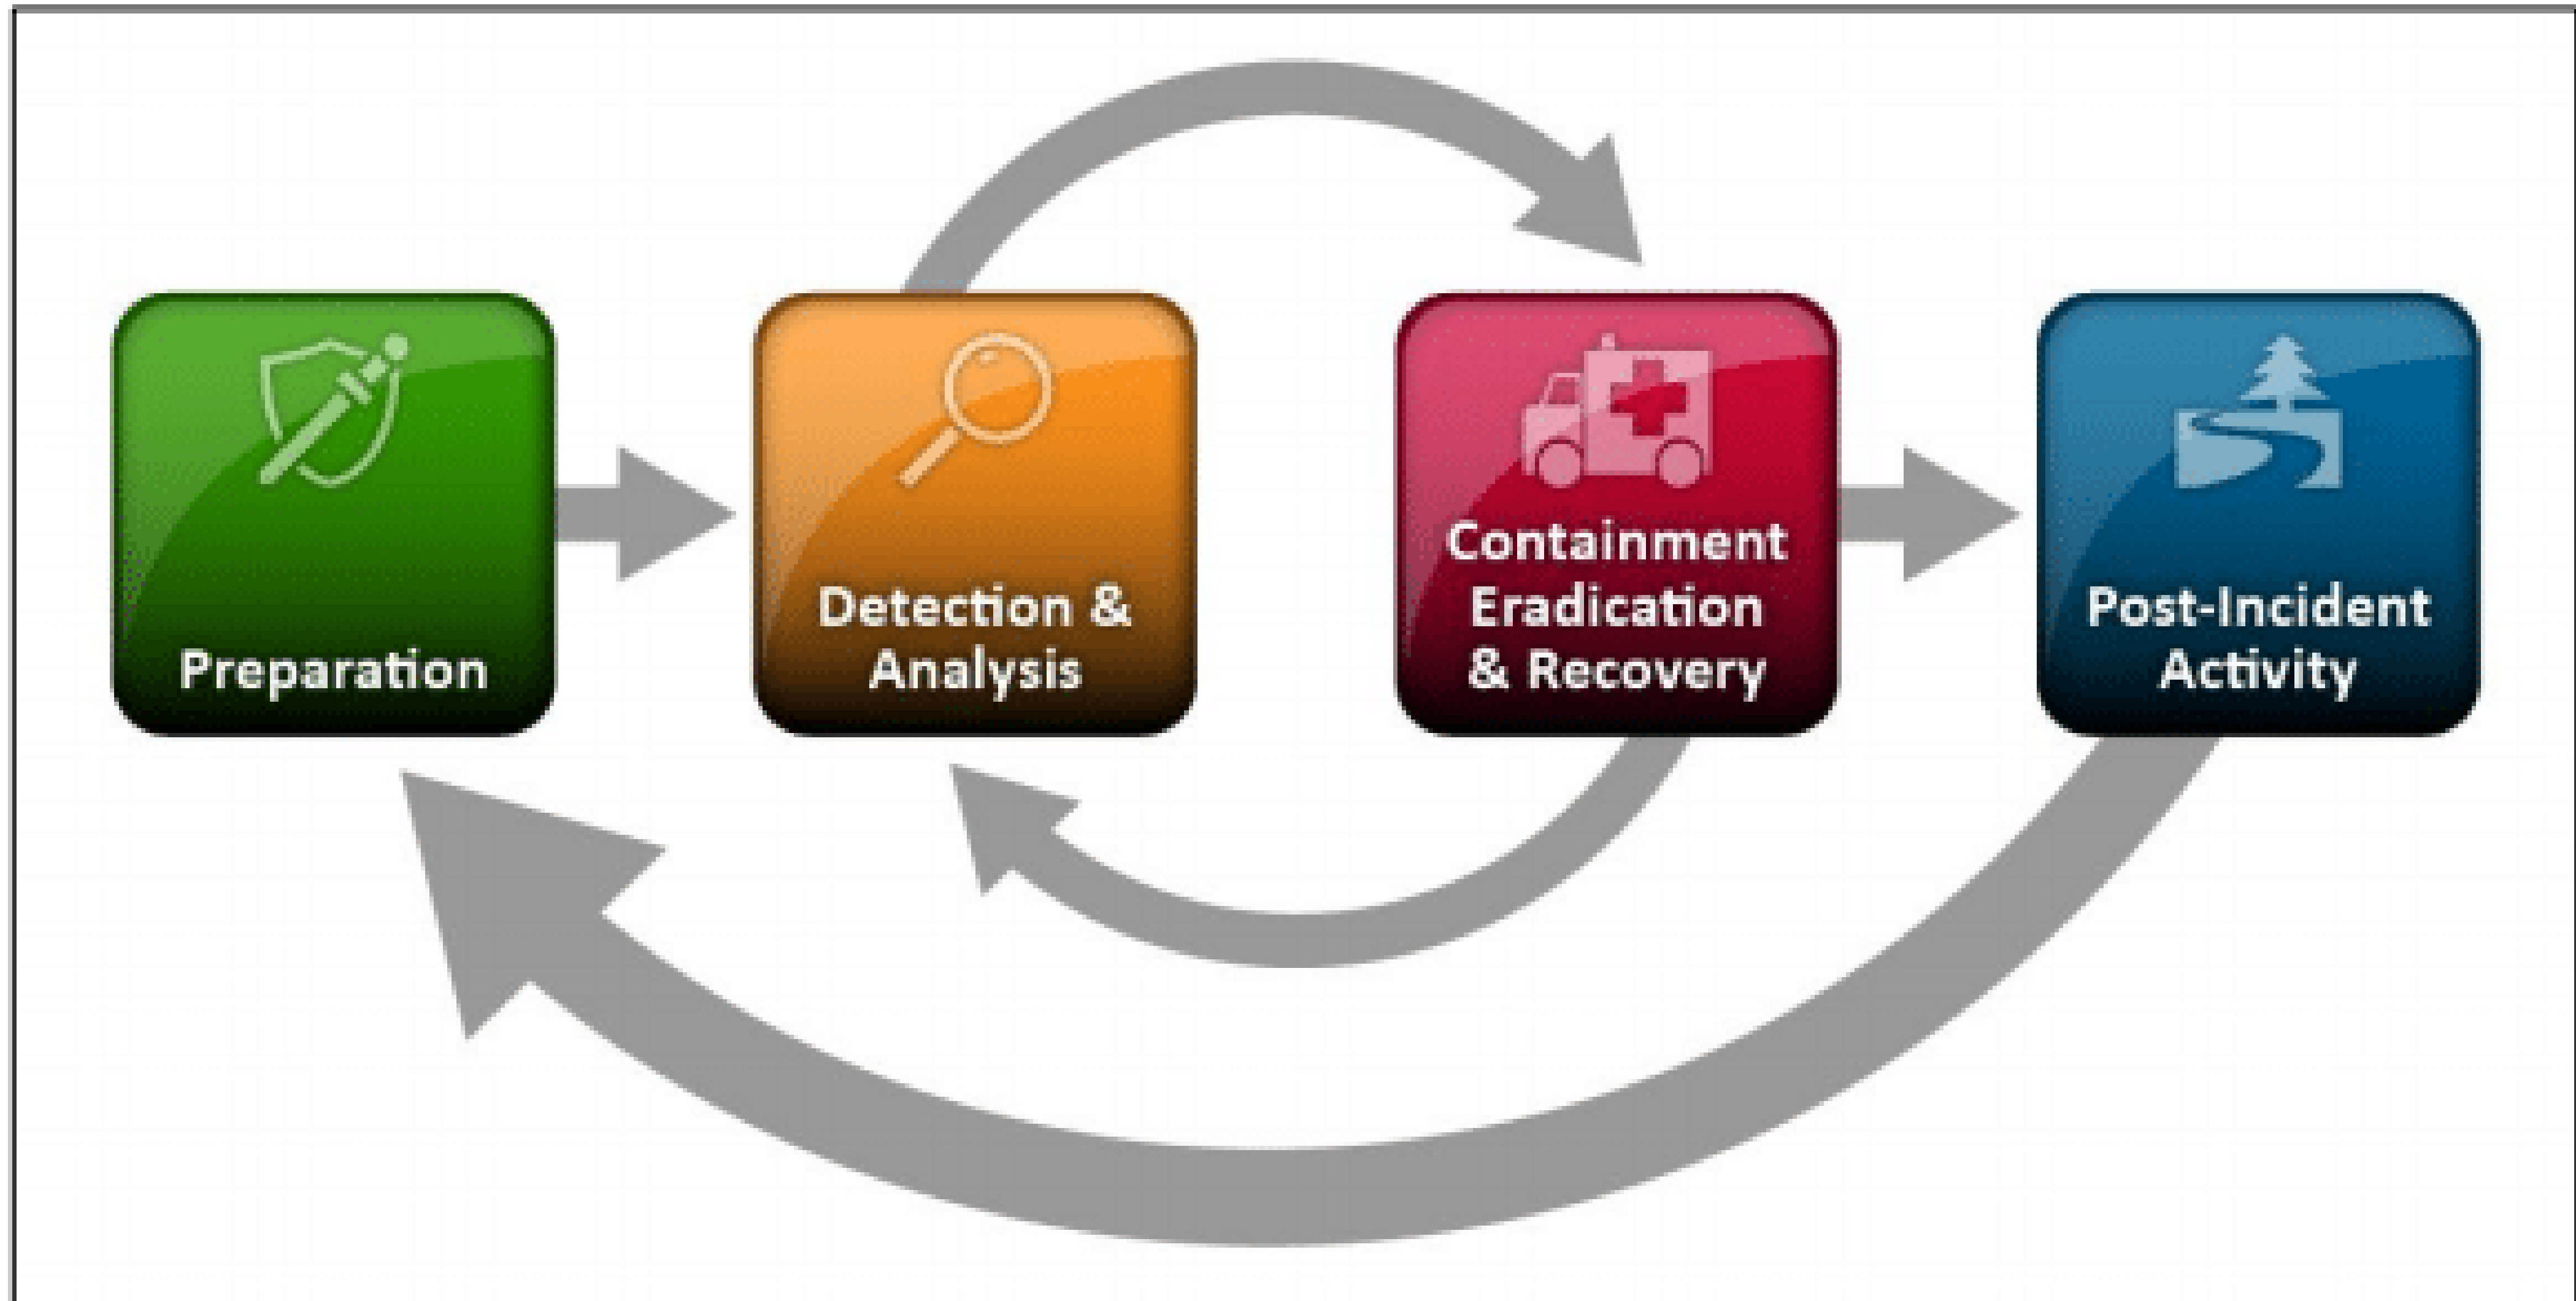

What is an Incident Response Plan?

What is an Incident Response Plan?

What is an Incident Response Plan?

And YES, a Breach is Possible and Likely

There are only two types of companies: those that have been hacked, and those that will be. Even that is merging into one category: those that have been hacked and will be again.

— Robert Mueller —
